

Only **Democrats Deliver** on Clean Energy and Jobs: *New Mexico Wins!*

- ▶ **Major investment in Rio Rancho Intel plant** brings manufacturing of electronic chips and parts back to the USA. The manufacturing hub will add 700+ highly skilled new jobs—and support job training.
- ▶ **SunZia Transmission and Wind project.** The *biggest wind project in the US*, as well as its turbine components, is being built in New Mexico. The project will generate \$20 billion in economic benefits to New Mexico by way of jobs and taxes paid.
- ▶ **Solar for All Program.** NM homeowners will have \$156 million in tax credits to increase their access to solar energy and thus reduce their utility bills. In Sandoval County, shared solar energy for rural and tribal communities, and special partner programs will prioritize Pueblos.
- ▶ **Maxeon Solar** will invest \$1 billion to manufacture solar cells and panels in Albuquerque.
- ▶ **Array Technologies** is expanding in NM to build solar trackers used for solar energy production.
- ▶ **Tax credits** will be given to companies that use apprentices and pay prevailing wages to build the skilled workforce needed in New Mexico.

At Stake? Trump will cut renewables & expand oil and gas. “We will Drill Baby Drill.”

Our Job? WIN! Elect a Democratic president and a Democratic Congress.

How? VOTE! Get others to the polls. Volunteer to help in your precinct. Get the word out.
